Executive Summary

The following study is an update of *U.S. Foundations: A Review of International Funding Priorities, 2000 (PN-ACG-896)* which was commissioned by the United States Agency for International Development (USAID) Bureau for Asia & the Near East (ANE) to gather information on the funding priorities of U.S. foundations operating internationally, especially in the ANE region. This update contains data for 86 foundations which fund internationally: 66 fund Africa, 68 fund Europe and Eurasia, 70 fund Latin America and the Caribbean, and 78 fund Asia and the Near East. In addition to updating the 56 profiles in the 2000 document, this study adds 30 mostly corporate grantmaker profiles. The Foundation Center's database and the foundations' own web sites are the primary sources of information.

Overall trends in international giving, as indicated by the Foundation Center, include a growth in the number of foundations supporting international programs, as well as an increase in the amount of funds disbursed for these programs. For the foundations represented in the study, our findings indicate that funding globally and in the ANE region is concentrated in the Human Capacity Development and Population, Health, and Nutrition sectors. The study concludes that a wealth of information on foundation giving is available to assist those working in international development. In addition, opportunities exist for third parties to help foundations identify funding needs and priorities and to help match funders with grantseekers.

Introduction

Today, many actors play increasing roles in international development assistance. Foundations, corporations, non-profits, academic institutions and other private U.S. players now, in the aggregate, are contributing more resources than USAID to address overseas development challenges.¹

USAID's Global Development Alliance (GDA) approach responds to this changed environment by extending USAID's reach and effectiveness in meeting development objectives by combining with the resources and assets of other partners. To that end, this study focuses on U.S. foundations that fund internationally.

There are four types of foundations:²

¹ USAID Global Development Alliance Secretariat. 2002. *Tools for Alliance Builders*. Page i.

²The Foundation Center. 1999. *Foundation Giving: Yearbook of Facts and Figures on Private, Corporate and Community Foundations*. Page 42, Figure 13, "General Characteristics of Four Types of Foundations."

- independent foundations established by a person or family of wealth (this comprises the largest group);
- company-sponsored foundations (also called corporate foundations) created and funded by business corporations;
- operating foundations established to operate research, social welfare, or other charitable programs deemed worthwhile by the donor or governing body; and
- community foundations supported by and operated for the benefit of a specific community or region.

Independent foundations represent about two-thirds of this study. Corporate foundations represent approximately one-third of the sample. Few operating foundations or community foundations fund internationally. With a few exceptions, the foundations represented in this update gave at least \$1,000,000 in grants in the most recent fiscal year for which data are available. The amount of these funds distributed to international programs is not readily available and is not included in this study. All foundations included in this study are U.S. based.

Recognizing that the most effective results come from using a diverse approach to find foundations interested in funding a project, this study outlines foundations in spreadsheet form by **subject** and **geographic** area, as defined by USAID.³ A more comprehensive document is provided as a supplement to the spreadsheet. The results represent approximately 100 hours of work.

Objectives

The objective of this study is to update the popular *U.S. Foundations: A Review of International Funding Priorities 2000*. This update hopes to give a better understanding of the priorities and funding levels of foundations operating in the ANE region and to gather information that is useful to both USAID/Washington and field missions on possible sources of funding for local non-governmental organizations (NGOs) and GDA projects. The result is a sample of current funding programs in ANE by sector. Data are also included for the other USAID regions, in the interest of fully representing each foundation's activities.

Methodology

The primary source of information for this study is the Foundation Center, an independent nonprofit clearinghouse for information on foundations, corporate giving, and related subjects.

³ A third recommended approach for funding is the **type of support** approach which identifies foundations that provide specified types of support, such as building funds, seed money, scholarships to individuals or general operating support. As USAID is unlikely to use this approach, type of support data is not detailed in this study.

The resources at the Foundation Center Library⁴ and on the Foundation Center web site: (<http://www.fdncenter.org>) were used to find foundations that work in the ANE region. Information about individual foundations was taken directly from the foundations' web sites, when available. For those foundations that do not have a web site, information available on the Foundation Center database was used.

First, all 56 foundations in the 2000 study were updated using information from the Foundation Center's database and the foundations' own web site. Secondly, the Foundation Center's FC Search program was used to make a new list of the top U.S. grantmakers interested in Asia generally or in specific Asian countries where USAID operates. Ranked by grants given (worldwide), many of the foundations were already profiled. Others were excluded because they only give domestically or donate less than 1 million dollars per year worldwide. Twenty foundations and corporate grantmakers were added to this update in this way. Lastly, the remaining 10 additional foundations included in this update were identified by comparing the list of foundations profiled to the September 2001 USAID *Private Foundations and Corporate Grantmakers in Africa*. The two lists contained many of the same foundations, but 10 foundations from the Africa study were both unique and judged to be of broader interest and so were included in this update.

Results

The data collected are represented in spreadsheet and document format. Of the 86 grantmakers detailed in the spreadsheet and document, the majority are independent foundations, with some corporate grantmaking programs also included. The data show the areas in which each grantmaker currently invests its international funds, categorized by the USAID sectors of Democracy and Governance (DG); Economic Growth and Agricultural Development (EGAD); Environment (ENV); Humanitarian Assistance (HA); Human Capacity Development (HCD); and Population, Health, and Nutrition (PHN). For each grantmaker, a "Y" in the spreadsheet indicates funding for a particular sector, if no funds are provided for a sector this is indicated by an "N." In the case that a grantmaker funds a certain sector but does not specify a country or region, this is represented by a "*G" in the spreadsheet, showing that the grantmaker funds activities in this sector globally but does not specify a regional preference. This information is provided for each grantmaker by every USAID region: Africa, Asia & the Near East (ANE), Europe & Eurasia (E&E), and Latin America & the Caribbean (LAC).

Also included is a document that complements the spreadsheet and provides additional information on the 86 grantmakers included in the study. In addition to the basic information available in the spreadsheet, the following information is provided for each foundation:

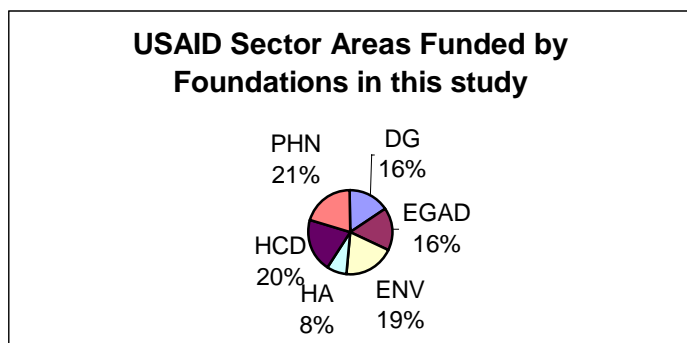

- *About the Foundation*, includes a brief description of the foundation and other relevant information.

⁴ The Foundation Center Library used in this study is located at: 1627 K Street, NW, 3rd Fl, Washington, D.C. 20006-1708, Tel: (202) 331-1400, Fax: (202) 331-1739. Locations for Foundation Center libraries in other cities can be obtained at the Foundation Center's web site: <http://www.fdncenter.org>

- *Region*, specifies the regions the foundation operates in, according to USAID terminology.
- *Area*, describes the sectors the foundation supports, according to the foundation's own terminology.
- *Current International Program Examples*, provides brief descriptions of international programs the foundation currently funds.
- *Applying for a Grant*, lists important information for grantseekers, including funding restrictions and where to obtain additional information.
- *Contact Information*.

Trends and Observations

Following USAID sector areas, the 86 Foundations in this study report interest in funding: 1) Human Capacity Development (HCD) and Population, Health, and Nutrition (PHN) (tie with 35 each); 2) Environment (ENV)(32); 3) Economic Growth and Agricultural Development (EGAD) (28); 4) Democracy and Governance (DG) (27); and Humanitarian Assistance (HA) (13). The percentage breakdown on areas funded is virtually the same for the ANE region. Foundation priorities in 2002 are similar to those stated in the 2000 study for most foundations.⁵

According to the Foundation Center's 2000 study on *International Grantmaking II*, one-third of international grantmakers report organizing their giving thematically, with no distinction between domestic and international grants. One-third organize their funding programs geographically, divided between grants with a domestic and international focus. The remaining one-third use a combination of both thematic and geographic approaches or give exclusively overseas.

⁵ The W. Alton Jones Foundation is in the process of restructuring. Following a merger the Chase Manhattan Corporate Foundation became the J. P. Morgan Chase Foundation and Citigroup Foundation was formerly the Citibank/Citicorp Corporate Contributions Program. Program priorities may have shifted following these mergers.

Overall, the Foundation Center reports that U.S. grantmaking foundations increased their contributions to nonprofit organizations in 2001, up 2% after inflation over 2000 giving.⁶ This defied expectations in a year of economic recession and national uncertainty following 9/11. New foundations continue to be a key factor in increased grantmaking. Between 1987 and 2000, the number of grantmaking foundations nearly doubled, from about 27,700 to nearly 56,000. Since 1998, the number of active foundations has risen by nearly 10,000, or an average of almost 10% a year. However, the 1,000 largest U.S. foundations account for more than half of all giving. No breakdown is given differentiating national and international contributions.

The collapse of the technology boom and the stock market's slide beginning in mid-2000 resulted in losses in asset values for half of the top 50 funders. The added value of new foundation endowments and the strong asset performance of a few top funders such as the Eli Lilly and Company Foundation boosted the overall growth of independent foundation assets. The top independent foundation was the Bill and Melinda Gates Foundation. Both Lilly and Gates fund internationally.

The Ford Motor Company Fund ranked first among corporate foundations by overall giving in 2000, for a second consecutive year. Generally, corporate foundations were the first to show the effect of the economic slowdown. For example, the David and Lucile Packard Foundation's assets dropped by close to \$3.4 billion or more than one-quarter, reflecting a steep decline in the value of technology stocks. Ford and Packard both fund internationally.

International grantmaking by U.S. foundations encompasses both giving to organizations in the United States for international activities and giving to local organizations throughout the world. Many foundations in the study specify that they only fund nonprofit organizations that are public charities according to section 501(c)(3) of the United States Internal Revenue Code. Foundations are permitted to fund individuals and organizations that are not public charities, but certain expenditure restrictions do apply. It therefore makes it easier for an organization to secure funding from foundations if they are a public charity. The Foundation Center can provide guidance to organizations on how to achieve public charity status.⁷

Lessons Learned and Next Steps

- The Foundation Center web site and new library in Washington D.C. have a wealth of resources available to the public at no charge. These resources include: a searchable fundraising database that covers close to 50,000 U.S. foundations and corporate givers, directories on foundations, profiles of the 1,000 largest foundations in the United States, and guides for grantseekers. The Center recently released the 6th edition of *Guide to Funding for*

International and Foreign Programs which covers the top 1,000 U.S. foundations funding internationally.

- The Foundation Center recommends choosing prospective funders by examining their descriptive profiles and recent giving histories. Consider foundations: 1) that have already supported similar projects; 2) that award the type of support sought, and 3) that are located in or typically award grants in geographic area sought. Grantseekers can use the Foundation Center's database to search by all three areas.
- A variety of resources are available on-line, including grantseeking tutorials. Sample letters of inquiry and sample proposals are also available on-line. The Foundation Center's website is an excellent place to start an on-line search.
- When a foundation only "makes grants to pre-selected organizations", that usually means that they do not accept uninvited inquiries from grantseekers. However, even when a funder says it gives only to pre-selected organizations, grantseekers should not completely disregard it as a prospect. For such grantmakers a different approach is necessary. The grantseeker must cultivate a relationship with the grantmaker who funds only pre-selected organizations, and this takes time. USAID can help the grantmaker identify areas to fund in the future and can help grantmakers become familiar with grantseekers current work.
- The growing number of U.S. foundations can compliment the growing trend in USAID for public-private alliances. USAID can encourage networking between business, government and non-profit entities. Close to four-fifths of international grantmakers surveyed in the Foundation Center's 2000 study reported partnering with other donors, and two-third report working with intermediary funding organizations in making cross-border grants.
- The U.S. has over 560 community foundations. While a challenge to know what is appropriate internationally for encouraging philanthropy and improving community life, USAID could work to link NGOs in developing nations with successful community foundation partners in the U.S. to exchange best practices and lessons learned. The largest U.S. community foundation, the New York Community Trust, now has close to 1 billion dollars in assets.
- As the number of private foundations and corporate giving programs in the U.S. continues to increase, USAID can play a role in encouraging foundations to direct their current and potential resources towards international programs.
- This study is intended as a starting point. It highlights selected funders and their international funding priorities. Foundation priorities change over time so readers are encouraged to look at a foundation's website for the most current information. Additionally, many foundations not listed in this study fund internationally and the number is growing. Thus, periodic updates of this study may be necessary.

3M Corporate Giving Program	http://www.3m.com/profile/community/index.html	UNK	14,522,000,000	23,800,000	12/31/00
-----------------------------	---	-----	----------------	------------	----------

About the Foundation:

The Corporation supports initiatives that address specific community needs and solve root problems, that apply innovative solutions to complex problems, that fill gaps in the service delivery system and help those who need services gain access, and that serve minority or disadvantaged people.

We provide general operating and program grants that make 3M communities a better place to live. Local civic and professional organizations received assistance for efforts targeted to economic and community development and job training. We fund programs in trade, economics and law that foster a free-enterprise system.

Region(s):

Africa, ANE, E&E, LAC

Area(s):

Arts and culture; Community development; Democracy and governance; and Education, health, and social welfare

Current International Program Examples:

Chronically ill children need laughter as well as medicine. In fact, laughter sometimes is the best medicine. 3M Turkey knows this and contributes to the Theodora Foundation, an international organization dedicated to bringing fun and entertainment to kids who must spend months inside sterile hospital environments.

School children in Turkey can feel safer crossing the street thanks to a donation of highly reflective traffic signs by 3M Turkey. 3M employees also distributed traffic safety brochures to students and reflective arm bands and book bag stickers to help make the children more visible.

Applying for a Grant:

The Corporation awards grants only in areas where 3M is located:

Africa

Alcoa Foundation	http://www.alcoa.com/site/community/foundation.asp	1952	441,245,083	21,300,000	12/31/01

About the Foundation:

Alcoa Foundation is a global resource that actively invests in the quality of life in Alcoa communities worldwide. With more than \$339 million invested since our inception in 1952, the Foundation has positioned itself as a source of positive community change and enhancement. Areas of Excellence guide our global and local grantmaking: 1) Conservation and Sustainability: Educating young leaders, protecting our forests, promoting sound public policy research, and business-environment linkages. 2) Skills Today for Tomorrow: Providing individuals with critical skills and services to be economically connected, workplace-ready, and productive. 3) Business and Community Partnerships: Strengthening the non-profit sector and developing non-profits-private sector-local government partnerships. 4) Safe and Healthy Children and Families: Ensuring that children and their families have tools, knowledge, and services to remain healthy and safe at home, in the community and workplace; and 5) Global Education in Science, Engineering, Technology and Business: Broadening student participation in areas central to Alcoa to ensure that a diverse cross-section of our communities is prepared for a global workplace.

Region(s):

Africa, ANE, E&E, LAC

Area(s):

Arts; Community development; Education; Early childhood education; Reading; Government/public administration; Health organizations; Higher education; Human services; Youth services.

Current International Program Examples:

Combined Social Home, Székesfehérvár, Hungary

Several elderly people receive food, shelter, care and daily companionship in the Combined Social Home. Alcoa Foundation supported the home's initiative to serve more people by adding a Club for the Elderly, providing the care and comforts of home to many who live alone.

Professor Antônio Rodrigues D'Oliveira State School, Itajubá, Brazil

Young people at the State School have a chance to acquire useful and marketable skills in woodworking. Their joinery shop has been re-equipped and upgraded for safety. Besides joinery, training includes health, safety and environment; production scheduling; and human relationships at work.

Applying for a Grant:

We give priority consideration to programs and organizations in or near communities where Alcoa plants or offices are located. Contact the Alcoa facility nearest you. Asian operations include China, India and the Philippines. See website for plant locations and grant application details.

American Friends Service Committee	http://www.afsc.org	1917	UNK	UNK	UNK

About the Foundation:

The American Friends Service Committee (AFSC) is a Quaker organization that includes people of various faiths who are committed to social justice, peace, and humanitarian service. Its work is based on the Religious Society of Friends (Quaker) belief in the worth of every person, and faith in the power of love to overcome violence and injustice. Founded in 1917 to provide conscientious objectors with an opportunity to aid civilian victims during World War I, today the AFSC has programs that focus on issues related to economic justice, peace-building and demilitarization, social justice, and youth, in the United States, and in Africa, Asia, Latin America, and the Middle East. The work of AFSC's International Division reaches to more than 30 countries. Programs of relief and reconstruction, training and support to local groups and movements, dialogue, and peace-building/reconciliation respond to local and regional needs and provide insight and information that is shared in the United States and elsewhere.

Region(s):

Africa, ANE, E&E, Global, LAC

Area(s):

Economic justice; Health; Humanitarian service; Peace-building and demilitarization; Social justice; Training; and Youth

Current International Program Examples:

AFSC work in Asia includes village level development assistance projects in Laos, Vietnam and Cambodia (e.g irrigation, drinking water, food production, credit) relief and development assistance to North Korea, and regional international affairs work in northeast Asia with a focus on relations with North Korea. Work in Cambodia also includes training in prosthetics, community work with the disabled and support for local capacity to curb violence.

AFSC program in the Middle East includes cooperation with a local board to manage the East Jerusalem Legal Aid and Information Center; support for several projects in Israel addressing especially the needs of Sephardic and Arab communities; a regional international affairs program based in Amman, Jordan; and a youth initiatives project in Palestine offering training and other support to community youth organizations.

American Himalayan Foundation	<a href="http://www.bena.com/ne
paltrek/ahf/ahf.html">http://www.bena.com/ne paltrek/ahf/ahf.html	1979	UNK	UNK	UNK

About the Foundation:

The American Himalayan foundation was founded in 1979 to respond to some pressing problems in the region. We began our work with the remarkable Sherpas of Nepal, answering their pleas for education with school and scholarship. We have since responded to similar requests in Ladakh, Bhutan, Pakistan and Tibet. In Dharamsala, India, we work closely with the Dalai Lama's government-in-exile to help Tibetan refugees in their difficult struggle to survive. Over time, we have expanded our focus to include health care, cultural preservation and environmental conservation. Within these four areas, AHF supports projects that are on a human scale and that directly benefit people who live in each region. We deeply respect the Himalayan community, our projects respond to their priorities. This responsiveness characterizes everything AHF does. The Himalayan people are our partners, they initiate direct and manage our projects to the fullest extent possible. The AHF supports and funds projects directly. We also join with other organizations in larger, cooperative endeavors. But in every case, AHF projects involve local commitment and community participation.

Region(s):

ANE

Area(s):

Cultural preservation; Education; Environmental conservation; and Health care

Current International Program Examples:

Cultural Preservation

The AHF helps provide the dignity of decent shelter for Tibetan refugees, especially the indigent and elderly. We also give a hand to the Drikung Kagyu Bakery in a Tibetan Settlement in Dehra Dun, where Tibetans can acquire useful skills and become more self-sufficient.

Education

We built Kanchenjunga Tibetan Schools in eastern Nepal and Korphe School in Pakistan. We support Tibetan Children's Villages, where in 17 location throughout India and Nepal, 10000 refugee children learn to be citizens of the world while remaining grounded in their own culture and language. AHF supports the Soga Transit School for Tibetan refugee youth in Dharamsala, the Nepal Youth Opportunity Foundation in Kathmandu and Child Haven in Bhaktapur. We sponsor college students with scholarships in health care, education and environmental sciences.

About the Foundation:

The Arca Foundation was established in 1952 as the Nancy Reynolds Bagley Foundation. From the start, Arca's grantmaking has focused on empowering citizens to help shape public policy. Also from the beginning, the foundation's work has had an international as well as domestic dimension. Arca's first grants supported groups working on population policy and women's rights, issues of great importance to Mrs. Reynolds. As second- and third-generation family members joined the board, its grantmaking changed to reflect new concerns: environmental issues in the 1970s, U.S. foreign policy toward Central America and Cuba in the 1980s and '90s, and the urgent need to curb corporate domination of our politics through genuine campaign finance reform.

Share and Care Foundation

\$75,000 Share and Care Foundation is a US-based charity and the largest private Indian American philanthropic organization. The funds will be used for the expansion of Youth Development Programs in India in 2002.

Applying for a Grant:

AT&T Foundation funds are typically disbursed through invitational programs or by applications that we solicit from and with selected nonprofit organizations. Even in the case of invited proposals, prior commitments and finite resources require us to decline many funding requests that appear to meet our guidelines and funding criteria. See website for funding guidelines:

<http://www.att.com/foundation/guidelines.html>

If after reading the above stated policy you still choose to apply to the AT&T Foundation, you should submit a brief letter of introduction and description of your organization/project. If your organization and its activities are local in scope — in the United States or in another country — you should contact one of the AT&T Regional Offices. Baptist World Alliance	http://www.bwanet.org	1905	UNK	UNK	UNK

About the Foundation:

The Baptist World Alliance, the official global fellowship of Baptists, uniting 191 Baptist conventions/unions was started in London, England, in 1905 at the first Baptist World Congress. Ninety years later, the BWA still exists to provide fellowship, meet human need, lead in evangelism and work for justice.

Region(s):

Global

Area(s):

Development; Evangelism; Fellowship; Justice; Relief; and Women's issues

Current International Program Examples:

Justice

Since it began, Human Rights, including Religious Freedom, has been at the forefront of the work of the Baptist World Alliance. Current concerns are:

1. The Karen refugees from Burma in Thailand.
2. Religious freedom in Romania and Bulgaria.
3. Recognition of Belgium Baptists as a church and not a cult.
4. Religious freedom for Baptists and other believers in the Middle East.
5. Racism in North America.
6. Tribal and ethnic conflict, one example of which is the Naga and Kuki conflict in Northeast India.
7. Persecuted Christians in Indonesia and other countries.
8. Religious freedom in Israel/Saudi Arabia.

Relief, Development and Fellowship:

Baptist World Aid is the compassionate arm of the Baptist World Alliance, supporting:

1. Relief: Famine, Disaster and Refugee
2. Sustainable Development: Agricultural, Health and Education
3. Fellowship Assistance to Baptists: Religious printing, Church building and renovations, Medicines and Food supplements, and Hospitality assistance for conferences and meetings.

Applying for a Grant:

All projects need to be sponsored by, or have the written endorsement of, a BWA member body and/or mission in the country of need, since they will be responsible for administering the program.

About the Foundation:

The Brackett Foundation, established in April 1997, is a small not-for-profit foundation organized to help educate refugees. The Foundation seeks support from friends, family and other foundations, and it has received tax-exempt status from the Internal Revenue Service.

Region(s):

ANE

Area(s):

Education

Current International Program Examples:

There are now over one hundred thousand Burmese refugees living in refugee camps in Thailand. These people come from all walks of life, some are hill tribe people who have never attended school, others have university degrees. Their most basic needs for food, shelter and medical care are being met by church and humanitarian groups. However some refugees have lived in Thailand for ten to twelve years or more, and simply providing basic needs is not enough to sustain their culture over long periods of time. At first the refugees could support schools for their children, at least through primary school, and some camps could provide high school classes as well. But in the last few years the Karen government has been unable to provide for these schools, and thus the Karen are in danger of losing a generation of educated leaders. We believe that we can best help our refugee friends by helping them to educate themselves and their children. Education provides a focus for daily life, it helps to build community, and in the end is vital to the preservation of democratic ideals without which little hope exists for peace in Burma. The Brackett Foundation raises funds to develop, support and monitor these education projects.

About the Foundation:

Incorporated in 1942 in WI as the Allen-Bradley Foundation, Inc.; adopted present name in 1985. Support for projects that cultivate a renewed, healthier, and more vigorous sense of citizenship, at home and abroad. Projects will reflect the assumption that free men and women are genuinely self-governing, personally responsible citizens, able to run their daily affairs without the intrusive therapies of the bureaucratic, social service state. Projects reflecting this view of citizenship and civil society may be demonstrations with national significance; public policy research in economics, politics, culture, or foreign affairs; or media and public education undertakings. Local support is directed toward cultural programs, education, social services, medical and health programs, and public policy research.

About the Foundation:

Carnegie Corporation of New York is a general-purpose, grantmaking foundation established in 1911 by Andrew Carnegie "for the advancement and diffusion of knowledge and understanding among the people of the United States." Subsequent charter amendments have allowed the Corporation to use 7.4 percent of its income for the same purposes in countries that are or have been members of the British Commonwealth. Overseas grants are currently concentrated in Commonwealth Africa. Grants in "noncharter" countries are occasionally made when their substantial purpose is the advancement and diffusion of knowledge and understanding among the people of the United States.

About the Foundation:

The Center for International Private Enterprise (CIPE), an affiliate of the U.S. Chamber of Commerce, works to build democracy and market economies throughout the world. CIPE works in four principal areas: a grants program currently supporting over 90 indigenous organizations in developing countries, an award winning communications strategy, training programs, and technical assistance through field offices. Since its inception in 1983, CIPE has funded more than 700 projects in 80 countries and has conducted management training programs throughout the world. CIPE conducts their programs with funding from the National Endowment for Democracy and the United States Agency for International Development. CIPE has received support for specific programs from IBM, Coca-Cola, Ernst & Young, Capitol Health Partners, The Pew Charitable Trusts, RJ Reynolds Tobacco and the United States Information Agency. Supports business organizations and think tanks in developing countries that are working on the objectives listed below. CIPE's strategy for 2001 focuses on the following key issues: 1) Combat corruption to support democratic values; 2) Promote sound corporate governance measures; 3) Strengthen the role of women-owned businesses and women's business associations; 4) Support entrepreneurship as a means of lessening the income gaps between and within countries; 5) Build knowledge of how markets function in a democracy; 6) Reform institutional structures bringing the informal sector into the formal economy; 7) Promote privatization as a key step to competitiveness.

Region(s):

Global

Area(s):

Communications; Democracy; Indigenous organizations in developing countries; Management training programs; Market oriented reform; Technical assistance; and Women in business

Current International Program Examples:

Unirule Institute of Economics (UNIRULE), China Symposia on China's Transition to a Market Economy
To help develop and strengthen a network of non-government economic think tanks in China, CIPE provides support to the Unirule Institute of Economics which is undertaking research projects on current economic issues, and presenting its independent findings to top policymakers in papers and workshops.

Applying for a Grant:

CIPE responds to proposals from partner organizations with management and technical assistance and financial support. Incorporated in 1969 in NY; name changed in 2001 as a result of J.P. Morgan/Chase merger. The year 2001 represents a year of transition- "Purpose and Activities", "Fields of Interest" and "Program Areas" are subject to change. Chase seeks to improve the well-being and vitality of communities in which the bank operates through financial contributions, technical assistance, and by encouraging Chase employees and retirees to volunteer for and financially support nonprofit organizations. Chase also aims to serve as a leader in corporate social responsibility and community support in the eyes of its customers, employees, shareholders, and the community at large. Chase supports the following focus areas (in priority order) in the tri-state region, across the nation, and around the world: 1) Community development and human service needs of the residents of Chase communities in the areas of housing, economic development, and social services. 2) Pre-collegiate education, systematic school reform, training and employment experience for youth, minorities, and disadvantaged adults, and the bank's diversity and recruitment initiatives. 3) Artistic development of all cultures through dance, film and video, music, theater, and visual and performing arts. 4) The marketplace of ideas, examination of public policy issues, and organizations intended to help other nonprofits operate more efficiently.

Chevron Corporation Contributions Program	http://www.chevron.com/community/frame.html	UNK	UNK	21,384,467	12/31/99

About the Foundation:

Corporate giving program. Chevron supports communities where it does business and where its employees live and work. Chevron focuses its activities in the following two areas: Education, with emphasis on efforts to promote excellence in math and science; human resources development; equal access and quality in schools; and Environment, with emphasis on conservation or habitat and wildlife preservation.

Region(s):

Global

Area(s):

Community activities; Education; and Environment

Current International Program Examples:

Education, with emphasis on efforts to promote excellence in math and science education. Today's youth will be solving tomorrow's problems, and a major task for our society is to prepare them to meet the challenges ahead. As Chevron depends on a workforce skilled in math and science, nearly 40% of our contributions budget is targeted for education in these disciplines.

Environment, with emphasis on conservation or habitat and wildlife preservation. Chevron's policies are often manifested in many small solutions, such as the way the company monitors wildlife during the course of everyday operations. To succeed in our goal to be recognized worldwide for environmental excellence, we must be an exemplary environmental citizen and be welcomed by the communities where we operate. Projects to preserve endangered species and habitats demonstrate the company's interest in safeguarding the future.

International Community Development. In many areas of the world, Chevron's contributions program contributes to a sustainable development model consisting of a range of social projects, from building schools to supporting medical clinics – all with input from local communities.

About the Foundation:

Headquartered in Stuttgart, Germany and Auburn Hills, USA the DaimlerChrysler Group generates annual revenues of more than US\$151 billion and employs over 466,900 people in 54 countries around the world. The DaimlerChrysler Corporation Fund concentrates its support on programs that address the key issues and criteria in the communities where the company has major operations and where employees live and work. The majority of our support focuses on four major areas: 1) Future Work Force; 2) Community Vitality; 3) Employee and Chrysler Involvement; and 4) Marketplace and Public Policy Leadership.

Region(s):

Global

Area(s): Youth; Social and cultural projects.

Current International Program Examples:

South Africa

In addition to its numerous cultural, social and youth projects, DaimlerChrysler has created an award to promote outstanding artistic talent around the world. With this award, DaimlerChrysler supports talented South African artists and helps them present their work on an international level. The idea behind the initiative is to improve the image of South African culture both at home and abroad, strengthen its profile and, in this way, ensure that the international community takes greater notice of the high standard of contemporary South African art.

Applying for a Grant:

Increasingly, our support is determined more by competitive grants and by initiatives that the company decides to undertake and less by unsolicited requests. In most cases, we prefer to make grants for specific projects with measurable results, rather than general operating support. See website:

About the Foundation:

The Barbara Delano Foundation (BDF) is a San Francisco-based 501(c)(3) foundation devoted to the protection of wildlife, its habitats and improving humankind's treatment of animals. Funding is dedicated to international programs primarily in developing countries. Funds support anti-poaching efforts and small hands-on organizations with low overheads and cutting-edge conservation programs. These programs are dedicated to protecting some of the world's most important flagship species and their habitats and ecosystems. BDF currently considers applications for the support of conservation and habitat protection of the following animals: bears, elephants, exotic birds, great apes, large cats, marine mammals, marine turtles, rhinos, and sharks.

Dell Foundation	Http://www.dell.com/us/en/gen/corporate/vision_foundation.htm	1995	16,781,071	1,142,766	1/31//00

About the Foundation:

The Dell Foundation, the primary philanthropic giving vehicle for Dell Computer, is chartered to proactively respond to the needs of the community. Since its inception in 1995, the foundation has supported a wide range of programs and organizations that benefit children, primarily in Central Texas and Middle Tennessee. Dell, a leader in the computer industry, shares its expertise and resources with its communities around the world. The company was founded in 1984 on the principal of one-to-one, direct relationships with its customers, suppliers and business partners. This philosophy is also true of its involvement within its communities. As the world continues its transition from an industrial economy to a digital economy, education, technology access and training are becoming critical tools in the search for social equity. Dell is committed to addressing these needs by leveraging its Internet leadership -- which is enabling Dell customers to build businesses on the Web -- to help build communities that are prepared for success in the digital world.

Region(s):

Global

Area(s): Education; Technology; Internet literacy and access.

Current International Program Examples:

About the Foundation:

Discovery Channel Global Education Fund's (DCGEF) Learning Centers focus on using technology to support public education in rural and under-resourced regions throughout the world. A Learning Center is a community-accessible site, like a school or community center. In partnership with the community, Discovery Channel Global Education Fund donates and installs a satellite dish, television and VCR. Training is also provided in the use of the technology both technically and as a teaching tool, with focus placed on creating a media resource that serves the broad needs of each community. The community owns the Learning Center, and manages its use. DCGEF is committed to this partnership, and to providing a continuing stream of educational and informational programming.

Region(s):

Global

Area(s): Technology access; Education.

Current International Program Examples:

Africa

Since November 1997, DCGEF has donated video equipment to 11 centers in South Africa and one new center in Zimbabwe. DCGEF also provides programming resources and training to another 26 sites in South Africa, most of which are schools. DCGEF is also a partner in a White House Millenium Project called Village Power 2000, through which a coalition of organizations is electrifying homes and schools in rural Uganda with solar power. As DCGEF moves into countries around the world, partnerships are sought with local businesses and nonprofits that share its goals. About the Foundation:

Eli Lilly and Company Foundation, organized in 1968, is a nonprofit corporation made possible by the profits of Eli Lilly and Company. It is the major source of the company's support for nonprofit organizations. Eli Lilly and Company Foundation is funded annually based upon an average of the company's consolidated income before taxes over the previous three years. The formula is designed to annually place Lilly among the top 10 most generous companies in the world. In 1998, Eli Lilly and Company donated pharmaceutical products valued at more than \$90 million U.S. net wholesale to patients in need throughout the world. Product donations are given through the following programs: 1)Lilly Cares Patient Assistance Program; and 2)Disaster Assistance and International Relief. Cash contributions from the Eli Lilly and Company Foundation are strategically focused within two broad categories. Sixty percent of funds allocated for discretionary giving is directed to not-for-profit groups aligned with company interests. The remaining 40 percent is allocated for discretionary gifts in Indianapolis and several other communities where Lilly has a significant employee base.

About the Foundation:

Ford Motor Company Fund was organized in 1949. It is a not-for-profit corporation made possible by Ford Motor Company's profits. The goal of Ford Motor Company Fund is to support initiatives and institutions that enhance and/or improve opportunities for those who live in communities where Ford Motor Company operates. The Ford Motor Company Fund has five key giving priorities: education (47%), environment (17%), health and welfare (14%), civic affairs and public policy (11%), and arts and humanities (11%). In 2000, Ford Fund grants totaled over \$82 million to not-for-profit organizations working within these priority areas.

Region(s):

Global

Area(s): Education, Environment, Health and welfare, Civic affairs and public policy, and Arts and humanities.

Current International Program Examples:

Environment

The new five-year, \$5 million grant awarded by Ford Fund to Earthwatch in 2000 helped strengthen and allow growth for this innovative organization. Our funds supported the existing station in Latin America, launched the Conservation Research station in Africa and will establish new stations in Asia, the United States, and in Mexico or Canada. Over the life of the grant, Ford Motor Company Fund's donation also will support at least 20 new environmental research projects, the work of some 40 scientists at the stations and funding for 150 research fellowships with local not-for-profit environmental partners. In addition, Earthwatch will sponsor 100 teachers and conservation education in field research, workshops and learning programs.

Applying for a Grant:

There are no application deadlines. To apply for support, an organization must submit a brief written proposal.

General Motors Foundation	http://www.gm.com/company/gmability/philanthropy/index.html	1976	155,059,576	30,482,845	12/31/99

About the Foundation:

General Motors has a proud and long-standing history of reaching out to communities in the U.S. and around the world. Since the inception of the General Motors Foundation in 1976, GM has been an active participant with organizations such as the American Red Cross, UNICEF, CARE, United Way, and Salvation Army in times of crisis. GM Global Aid is an initiative through which General Motors increases its ability to reach out to communities across the globe. GM's support stems from a fundamental belief in the advancement of human rights, equal opportunity, and social and economic justice for workers and communities everywhere.

Region(s):

Global

Area(s): Education; Health care.

Current International Program Examples:

Africa

General Motors received a Sullivan Award to honor individuals and corporations for their continuous support of Africa. Reverend Leon Sullivan, president of the International Foundation for Education & Self-Help, presented the awards to highlight the accomplishments of the 5th African-African American Summit held in May 1999 in Ghana. GM received the Corporate Leadership Award for its continuous support of these efforts. GM has been involved with the African-African American Summits since their inception in 1991. From the first summit in Abidjan, Cot d'Ivoire, to last year's Millennium Summit in Accra, Ghana, GM has been instrumental in helping to further human development and economic advancement of Sub-Saharan Africa. Over the years, GM's participation has helped to create the Teachers for Africa Program, SOS; Help the Children of Africa; and Project Med-Help.

Applying for a Grant:

A one-page cover letter is required and should clearly identify: the organization; contact person; project purpose; specific funding, service, or in-kind request; time period; why there may be a strategic link with GM; and, the total length of time GM support would be needed. A concept summary of no more than two pages is also required. Based upon the outcome of the concept evaluation, GM may request submission of a comprehensive proposal for additional evaluation. While GM and the GM Foundation accept and screen proposals for grants on a continuous basis, proposals must be received no less than 45 days prior to the month of the quarterly CPB meeting in order to be included in the next CPB review.

German Marshall Fund of the United States, The	http://www.gmfus.org	1972	211,563,180	7,033,216	05/31/98

About the Foundation:

The German Marshall Fund of the United States is an independent U.S. foundation created to serve the transatlantic community. The Fund's mission is to deepen understanding, promote collaboration and stimulate exchanges of practical experience between Americans and Europeans, particularly those in the national and local policy communities. The Fund was created in 1972 by a gift from the German people as a permanent memorial to postwar Marshall Plan aid. GMF has a total grantmaking budget of about \$10 million of which \$2 million is spent on GMF-managed fellowships. The remainder is allocated for grants in the areas of Economics, Environment, Immigration and Integration, and Foreign Policy. On occasion, GMF makes special grants to support projects or institutions that are worthy of support but that do not fall within one of GMF's established program areas.

Region(s):

E&E

Area(s):

Economics, Environment, Immigration and Integration, and Foreign Policy.

Current International Program Examples:

Given its mandate to work in all of Europe, since 1990 the Fund has placed special emphasis on grantmaking in Central and Eastern Europe. The Fund's goal is to promote cooperation and networking between the United States, Western Europe and the newly democratic countries of Central and Eastern Europe in the areas of political, economic, and environmental reforms. Grants focusing mainly on Poland, Slovakia, Romania and Bulgaria are made within the four program areas, and are directed from GMF's Bratislava office.

Applying for a Grant:

Initial inquiries should be submitted in a letter or brief proposal, written in English. All proposals should be sent to the Fund's Washington, DC or Berlin offices. Applications are considered throughout the year. Proposals are acknowledged upon receipt and are reviewed to determine whether they fit the Fund's areas and budget. See website for more information.

About the Foundation:

The Hewlett Foundation, incorporated as a private foundation in the State of California in 1966, was established by the Palo Alto industrialist William R. Hewlett, his late wife, Flora Lamson Hewlett, and their eldest son, Walter B. Hewlett. The Foundation's broad purpose, as stated in the articles of incorporation, is to promote the well-being of mankind by supporting selected activities of a charitable nature, as well as organizations or institutions engaged in such activities. The Foundation concentrates its resources on activities in- conflict resolution, education, environment, family and community development, performing arts, population, and U.S.-Latin American relations. Some subareas of interest to the Foundation are listed in the program descriptions that follow. Special projects outside these broad areas may from time to time be approved by the Board of Directors. Although the Hewlett Foundation is a national foundation, with no geographic limit stipulated in its charter, a proportion of disburseable funds has been earmarked for projects in the San Francisco Bay Area. The Foundation has a strong commitment to the voluntary, nonprofit sector. It will therefore assist efforts to improve the financial base and efficiency of organizations and institutions in this category. Proposals that show promise of stimulating private philanthropy are particularly welcome.

Region(s):

Global, LAC

Area(s):

Conflict resolution; Education; Environment; Family and community development; Performing arts; Population; and U.S.-Latin American relations

Current International Program Examples:

International Conflict Resolution (by invitation). The Foundation supports a limited number of organizations that are working on the international application of conflict resolution techniques and the development of practice-relevant theory related to ethnic, ideological, religious, racial, and other intergroup conflict around the world. Applicants in this area are expected to show significant field-level involvement with conflicts that have international ramifications. This is the only category of the conflict resolution program in which overseas initiatives are considered.

Hilton Foundation, Conrad N.	http://www.hiltonfoundation.org	1944	652,314,629	28,962,804	12/31/00

About the Foundation:

Established in 1944 by hotel entrepreneur, Conrad N. Hilton, the foundation remained relatively small until his death on January 3, 1979 when it received the bulk of his estate. In accordance with his will, the Foundation seeks to alleviate the suffering of the world's most disadvantaged, with a special emphasis on children and support for the work of the Roman Catholic Sisters. The Foundation, Fund and related entities have total assets of \$1.7 billion. Since its creation, the Foundation and Fund have distributed \$257 million for charitable projects throughout the world; grant awards average \$30 million per year. The combined annual operating budget for the Foundation and Fund is \$5.5 million.

Region(s):

Global

Area(s): Blindness; Early childhood development; Water; Domestic violence; Homelessness

Current International Program Examples:

Nutritional Blindness

With Foundation support during 1999, Helen Keller International (HKI), a division of Helen Keller Worldwide, supplied nearly four million Vitamin A capsules to Niger and Mozambique.

Trachoma

The Carter Center, with a \$14 million, ten-year grant, is adapting the infrastructure it created for Guinea worm eradication to trachoma control in countries where trachoma also is endemic. Focusing on changing behavior regarding facial hygiene and sanitation, work is supported in Ghana, Mali, Niger, and Nigeria. The Lions Clubs International has joined the partnership with an additional \$7 million to support trachoma prevention programs in Ethiopia and Sudan. World Vision is utilizing its \$1,125,000 grant for trachoma-related prevention programs in Ethiopia, Tanzania and Vietnam.

Water Development

The Foundation supports The Carter Center in its effort to eradicate the Guinea worm in 19 African countries. The work of partner organizations has reduced Guinea worm victims from more than three million in 1986 to less than 80,000 cases in 1999. Beyond relieving people's immediate suffering, the eradication effort builds and strengthens primary health care delivery systems in affected countries.

Applying for a Grant:

The Foundation generally does not encourage unsolicited proposals for funding. Instead, it identifies critical societal needs, then proactively initiates major, long-term projects with appropriate partner organizations to implement them.

About the Foundation:

To make the most effective use of IBM resources and expertise, IBM has selected priority issues and key initiatives for investment. Our main focus is Education. We also provide smaller grants in the areas of Adult Education and Workforce Development, Arts and Culture, Communities in Need, and the Environment. In addition, we provide opportunities for IBM employees to support their communities and the issues they care about through Employee Giving.

Region(s):

Global

Area(s):

Adult Education and Workforce Development; Arts and Culture; Communities in Need; and Environment

Current International Program Examples:

Adult Training and Workforce Development

Technology can be a powerful tool in education and job training programs for adults, helping broaden opportunities and strengthening programs available to adults in need of new skills and employment. It also can help simulate real job conditions, make the acquisition of education and skills more effective and help people get the network of support they need to obtain and retain employment.

Education

IBM realizes the worldwide power and importance of education. Through our Corporate Education Policy, and major initiatives such as Reinventing Education, KidSmart, and Project FIRST, IBM hopes to promote knowledge and skills which will ensure thriving communities around the globe.

Environment

IBM's support of the environment promotes the optimal use of leading-edge technology to conduct environmental research to offer new knowledge and enhanced understanding of these important issues.

Applying for a Grant:

Nonprofit organizations or educational institutions wishing to submit unsolicited proposals to IBM should make an initial inquiry in the form of a two-page letter. In the event that the proposal is of interest to IBM, additional information will be requested. For more information, go to:

About the Foundation:

The W.K. Kellogg Foundation is a nonprofit organization whose mission is to apply knowledge to solve the problems of people. Its founder W.K. Kellogg, the cereal industry pioneer, established the Foundation in 1930. Since its beginning the Foundation has continuously focused on building the capacity of individuals, communities, and institutions to solve their own problems. Most grants are awarded in the United States, Latin America and the Caribbean, and six southern Africa countries including Botswana, Lesotho, Mozambique, South Africa, Swaziland, and Zimbabwe. Programming activities center around the common vision of a world in which each person has a sense of worth; accepts responsibility for self, family, community, and societal well-being; and has the capacity to be productive, and to help create nurturing families, responsible institutions, and healthy communities. Funding for Leadership; Information Systems/Technology; Capitalizing on Diversity; and Social and Economic Community Development is woven throughout programming interests.

Region(s):

Africa, LAC

Area(s):

Basic education and youth; Community/civil society organizations; Food systems; Rural development; and Philanthropy and volunteerism.

Current International Program Examples:

Leadership Regional Network (LeaRN), Africa

This Programme Initiative aims to build the capacity of leaders at local, provincial, national, regional and global levels, and to increase community voices in the policy development process in Botswana, Lesotho, Mozambique, South Africa, Swaziland, and Zimbabwe.

Healthy Adolescent Initiative, Latin America & the Caribbean

The Pan-American Health Organization (PAHO) has received a grant to: support the promotion of youth-related policies and legislation; build capacity for advocacy; enhance social communication through the use of mass media; and, create national and international networks of information about youth. The initiative is comprised of 12 active projects in Argentina, Chile, Colombia, Brazil, Bolivia, Nicaragua, the Dominican Republic, and El Salvador.

About the Foundation:

The John S. and James L. Knight Foundation was established in 1950 as a private foundation independent of the Knight brothers' newspaper enterprises. It is dedicated to furthering their ideals of service to community, to the highest standards of journalistic excellence and to the defense of a free press. The Foundation's Journalism Program is international in scope. Grants are made to U.S.-based organizations and institutions which offer special promise of advancing the quality and effectiveness of a free press. The Foundation gives particular emphasis to the education of current and future journalists, the defense of First Amendment rights and support of a free press at home and worldwide.

Applying for a Grant:

A brief letter of inquiry is the best way to introduce a new idea. If we think your inquiry can be developed into a full proposal, we will let you know. If your inquiry is being developed into a full proposal, read through the programs and guidelines carefully before starting down the application road. We have changed our grant application forms to include information that will aid both the Foundation and prospective grant-seekers. You now have two choices for completing a full proposal online. See website: http://www.knightfdn.org/default.asp?story=programs_apply_guidelines_insert.html The Foundation considers inquiries as they arrive and schedules proposals for the appropriate board agenda. The review process generally takes approximately six months. The Foundation prefers not to fund international programs and organizations, except U.S.-based organizations supporting free press around the world.

About the Foundation:

The McKnight Foundation is a private philanthropic organization founded in Minnesota in 1953 by William and Maude McKnight. While Mr. McKnight was president and chief executive of the 3M Company, the Foundation has no affiliation with 3M. The mission is to improve the quality of life for present and future generations and to seek paths to a more humane and secure world. International grantmaking is targeted in six countries—three in Africa (Tanzania, Uganda, and Zimbabwe) and three in Southeast Asia (Vietnam, Laos, and Cambodia).

Region(s):

Africa, ANE

Area(s):

Agricultural, Community and Micro-enterprise development; healthcare; land mine victims

Current International Program Examples:

Africa Grants Program

The goal is to foster women's social and economic empowerment in Tanzania, Uganda, and Zimbabwe. It seeks to increase women's access to skills and economic opportunities that will help them gain greater control over their lives. Each year, our Africa program awards about US \$750,000 to projects that support this goal.

Southeast Asia Grants Program

The goal is to foster community development and economic empowerment in Vietnam, Laos, and Cambodia. It seeks to increase the capacity of isolated communities and families to achieve self-sufficiency and improve their quality of life. About US \$1 million in grants is awarded each year to support economic and human development, land mine victim services, health, and education, with an emphasis on building the capacity of indigenous organizations.

Applying for a Grant:

About the Foundation:

The Moriah Fund was established in 1985 to perpetuate a philosophy of giving that is rooted in Jewish values. These values include: a concern for the disadvantaged and an emphasis on self-help; a commitment to equity and justice; and a desire to improve the quality of life for Jews and non-Jews alike. In accordance with these values, the mission and operations of the Moriah Fund incorporate a concern for the basic needs of all people – especially the most vulnerable – and for the well-being and continuation of the Jewish people. Headquartered in the District of Columbia, the Fund seeks to promote pluralism and democracy, help the disadvantaged gain self-sufficiency and control over their lives, promote women's health and human rights, foster sustainable development, and protect and preserve the environment. The Fund focuses on areas where private funding can make a difference, that is, areas that receive inadequate government funds or that leverage additional public and private support through advocacy and the modeling of innovative programs.

About the Foundation:

The David and Lucile Packard Foundation provides grants to nonprofit organizations in the following broad program areas: Conservation; Population; Science; Children, families, and communities; Arts; and Organizational effectiveness and philanthropy. While the Foundation has a special focus on the Northern California, it also provides national and international grants.

Region(s):

Africa, ANE, Global, LAC

Area(s):

Conservation; Population; Science; Children, families, and communities; Arts; and Organizational effectiveness and philanthropy.

Current International Program Examples:

Population

The Population Program aims to slow the rate of growth of the world's population and to expand reproductive health options for the world's poor. We do this in the United States and in eight focus countries: Ethiopia, India, Mexico, Myanmar, Nigeria, Pakistan, the Philippines, and Sudan. Our activities span five thematic areas including family planning and reproductive health, youth, mobilization, reproductive rights, and leadership

About the Foundation:

The Pfizer Foundation, Inc. is an independent charitable foundation established by Pfizer Inc in 1953. The Foundation's mission is to promote access to quality health care and education, to nurture innovation and to support the community involvement of Pfizer people. As a complement to its foundation, Pfizer also makes charitable contributions to nonprofit organizations directly. Support is given on an international basis.

Region(s):

About the Foundation:

The Rockefeller Brothers Fund (RBF) is a philanthropic organization dedicated to improving the well-being of all people in the transition to global interdependence. On July 1, 1999, the RBF and the Charles E. Culpeper Foundation merged. Under the name of the Rockefeller Brothers Fund, the major grantmaking programs of both foundations will be continued. On July 1, 1999, the Charles E. Culpeper Foundation of Stamford, Connecticut, merged with the RBF, bringing the Fund's total assets to approximately \$670 million. The Fund's major objective is to improve the well-being of all people through support of efforts in the United States and abroad that contribute ideas, develop leaders, and encourage institutions in the transition to global interdependence. Attention is focused on locally based problems and grantees, but in the context of global concerns. To maximize resources, projects are concentrated from time to time in different geographic regions. At present those regions include the United States, East Central Europe, East Asia, and the Russian Far East. Note that the One World Fund is active in Asia, but is phasing out its Sustainable Resource Use activities in Eastern Europe.

Region(s):

About the Foundation:

Over the course of the past year the Foundation affirmed John D. Rockefeller's original mandate "to promote the well-being of mankind throughout the world." Within this mandate, however, it was decided that the mission for the 21st century should be: The Rockefeller Foundation is a knowledge-based, global foundation with a commitment to enrich and sustain the lives and livelihoods of poor and excluded people throughout the world. The Foundation works through four themes, or subject areas of work— Creativity and Culture, Food Security, Health Equity and Working Communities, and one cross-theme, Global Inclusion. This cross-theme addresses issues that connect the themes and their constituencies, and identifies ways to strengthen the linkages between them. In addition, the Foundation funds a number of programs that are new or exploratory in nature. Foundation programming is managed from the Foundation's offices in New York City; Bangkok, Thailand; Nairobi, Kenya; Harare, Zimbabwe; Mexico City; and San Francisco.

Region(s):

Africa, ANE, Global, LAC

Area(s):

Creativity and culture; Food security; and Health equity; Communication; Education; Partnerships; Philanthropy; and Population.

Current International Program Examples:

Creativity and Culture

We will increasingly extend into Latin America, Africa and the Muslim world.

Health Equity

The program will concentrate its work in sub-Saharan Africa and south and Southeast Asia, the regions of the world facing the most serious health challenges. We will work within three subthemes: Harnessing the New Sciences; Resourcing Public Health; Strengthening Global Leadership.

Applying for a Grant:

The Foundation is a proactive grantmaker. Officers and staff seek out opportunities that will advance the Foundation's long-term goals, rather than reacting to unsolicited proposals. Foundation officers receive more than 12,000 proposals each year, 75 percent of which cannot be considered because their purposes fall outside the Foundation program guidelines. It is important to note that as a matter of policy the Foundation does not give or lend money for personal aid to individuals, support attempts to influence legislation, or, except in rare cases, provide general institutional support, fund endowments or contribute to building and operating funds.

Soros Foundations Network	http://www.soros.org	1993	UNK	428,400,000	12/31/97

About the Foundation:

The numerous nonprofit foundations created by the philanthropist George Soros are linked together in an informal network known as the Soros Foundations Network. At the heart of this network are the “national foundations,” a group of autonomous organizations operating in over 30 countries around the world, principally in Central and Eastern Europe and the former Soviet Union but also in Guatemala, Haiti, Mongolia, and Southern Africa. All national foundations share the common mission of supporting the development of open society. They operate and support an array of initiatives concerned with arts and culture, children and youth, civil society development, economic reform, education at all levels, legal reform and public administration, media and communications, publishing, and health care. The Open Society Institute (OSI) and the Open Society Institute-Budapest (OSI-Budapest) assist the national foundations by providing administrative, financial, and technical support, as well as by establishing “network programs” to address certain issues on a regional or network-wide basis. In 1997, the organizations of the Soros Foundations Network spent a total of \$428.4 million on philanthropic activities. The largest portion of these expenditures was devoted to education.

Region(s):

Africa, ANE, E&E, LAC

Area(s):

Arts and culture; Children and youth; Civil society development; Economic reform; Education; Health care; Legal reform and public administration; and Media and communications

Current International Program Examples:

International Initiatives can be divided into the following categories. First, purely international initiatives that are concerned with topics of interest for the larger world community, for example migration and landmines. Secondly, initiatives that deal with the arts and education, like science education and the Documentary Fund. And lastly, there are country-specific initiatives that deal with a limited geographic area, like Burma and Central Eurasia. The Burma Project assists Burman refugees as well as refugees from other ethnic groups by providing opportunities for education, job training, and communication. The Project also promotes international awareness of the oppressive living conditions created by the country’s military dictatorship. In 1997, the Project provided humanitarian aid and supported training programs for refugees exiled along Burma’s border. For example, the Project contributed funds to the Burmese Border Consortium.

Unocal Corporation Contributions Program	http://www.unocal.com/responsibility	UNK	UNK	4,000,000	12/31/00

About the Foundation:

A corporate giving program sponsored by the Unocal Corporation. Unocal funds community and humanitarian projects through direct corporate giving, contributions from the operating budgets of individual business units, and Foundation grants. In 1999-2000, Unocal's strategic social investments through these three mechanisms totaled \$4.1 million and \$5.5 million, respectively. 2001 expenditures were about \$6.2 million. In 2001, we expanded the Unocal Foundation's activities and budget and shifted most of the direct corporate giving activities to the Foundation. Support is given on an international basis including: Bangladesh; India; Indonesia; Philippines; Thailand; and Vietnam. The company's humanitarian giving target is 1% of pretax earnings based on an average of the three previous years. We established joint initiatives with the International Youth Foundation, International Institute for the Rights of the Child, Heart to Heart International, and Habitat for Humanity, among others.

Region(s):

ANE

Area(s):

Children, services; Community development; Disasters, preparedness/services; Education; Health care; and Rural development.

Current International Program Examples:

Bangladesh

Unocal Bangladesh, Ltd., donated a 4-wheel-drive pickup truck and two motor boats to the Immunization and Other Child Health project to aid in polio immunization in hard-to-reach regions of the country.

Myanmar

Unocal's investment in Myanmar has been sharply criticized by some activists for alleged human rights abuses by the military in the pipeline area. Unocal has worked to ensure not only that no human rights violations occur on this project, but also that communities in the vicinity are free of abuse.

Applying for a Grant:

Giving internationally in areas the company operates including Bangladesh, India, Indonesia, Philippines, Thailand, and Vietnam. National and international organizations should contact US headquarters. The Public Policy, Health, Environment, and Safety Department handles giving. About the Foundation:

The Wallace Global Fund is guided by the vision of the late Henry A. Wallace, former Secretary of Agriculture and Vice-President under Franklin D. Roosevelt. The mission of the Wallace Global Fund is to catalyze and leverage critically needed global progress towards an equitable and environmentally sustainable society. The Fund believes meeting the goal of global sustainable development requires: 1) the early stabilization of growth of human populations; 2) participatory and accountable economic, social and environmental governance; and 3) significant changes in global patterns of production and consumption.

WorldSpace Foundation	UNK	1997	UNK	UNK	UNK

About the Foundation:

Created in 1997 to provide educational and informational programming to people in developing regions of the world who are disadvantaged by illiteracy, poverty or geographic isolation. The Foundation partners with a wide array of organizations to produce its educational programs for broadcast on WorldSpace satellites.

Region(s):

Global

Area(s): Health, Agriculture, Environment, Women's issues, Civic education.

Current International Program Examples:

Africa Learning Channel - social development, educational and cultural programming in English. Based in Washington, DC, the ALC broadcasts materials collected from African productions and co-productions and focuses on social development issues such as micro-enterprise development, health, HIV/AIDS, history, English as a Second Language, conflict resolution, economic development, women's issues, and human rights. The service benefits African NGOs, universities, and community radio stations and centers.

In Sudan, for example, UNICEF-OLS teamed up with WorldSpace Foundation to bring social development and educational material to isolated communities in Sudan. Using WorldSpace technology, community members can download web-based content directly to community information centers.

In Niger, solar-powered transmitters, wind-up radios, and a WorldSpace AfriStar digital satellite receiver bring information to Bankilare. The whole system is housed in the Bankilare Community Information Center (CIC) and is the result of successful collaboration between various international and local development groups, the Niger government and the people of Bankilare.

World Wildlife Fund	www.worldwildlife.org	1961	148,929,295	25,857,808	06/30/01

About the Foundation:

Established in 1961 in DC., this public charity seeks to promote the conservation of nature by focusing their work on a new priority-setting tool: the Global 200 Conservation framework. This, in turn, forms the fund's Living Planet Campaign, which seeks to combine local and global actions in a concerted, worldwide effort to save endangered species, protect important harbors of biological diversity, and encourage changes in those international markets that accelerate environmental threats.

Region(s):

Africa, ANE, E&E, LAC

Area(s):

Animals/wildlife, preservation/protection; Education; Environment, natural resources.

Current International Program Examples:

Borneo

The Heart of Borneo is a hotbed for both biodiversity and human activity - and it is one of the most diverse and fragile regions on earth. WWF scientists explore these magnificent rainforests in an effort to develop workable solutions to protect endangered species and their habitats.
